Hello Gentlemen,

I wanted to attach for you the redlined current version which shows what exactly has been changed, as well as the previous versions you have signed before.

Sometimes, as is the case here, the Patent Examiner's Supervisor will want to re-check everything before the patent is granted and published. This typically does not require so many stages of corrections, but unfortunately the supervisor feels these corrections will be necessary to get the final grant.

Please feel free to contact me should you have any questions.
Thank you,
Lopamudra Sengupta

Hello Vincent and Ansley,

We have received the signatures from the other inventors and are waiting on your signatures. This is an urgent matter and we have been given a deadline of this week to submit the signatures in order to get the issuance of the patent. If we are unable to submit the signatures in time, the Examiner may choose to re-open prosecution and there is no guarantee the patent will be issued.

Please let me know as soon as possible if you are unable to have the signatures emailed back in PDF form by the deadline.

Thank you again,

Lopa

Hello Mr. Dumaine and Mr. Jessup:

Happy New Year and I hope this finds you well. As you know we are awaiting your signatures to the attached Substrate Reissue Declaration. If you could kindly date and execute the attached and forward me a PDF copy it would be most appreciated. Should we not hear from you in the next few days we will have to file the necessary forms to advise that we were unable to locate the remaining inventors.

Thank you in advance for your help with this. I look forward to hearing from you.

Best regards,
